1. [] prior to August 1951 films were still being manufactured at Agfa-Filmfabrik, Wolfen, with several layers of emulsion in accordance with the usual procedure of Agfa film production. Color film with one highly sensitive emulsion was not being produced. At that time, the subject of the eventual production of such film had not been brought up at the Agfa plant. 25X1
2. Neither 27/10 DIN nor 30/10 DIN type films were produced at the Agfa plant prior to August 1951. [] if the films are actually being produced at the present time, the production could not have started long ago, because, in August 1951, no preparations had been made for such production. 25X1

Comment: Not indicated, possibly December 1952.
